### PROFESSIONAL SUMMARY

Passionate backend developer with over 10 years of experience building robust solutions using **Golang** and Node.js. Extensive experience in creating and implementing **Microservices**, **RESTful APIs** and **AWS** deployments. Skilled in collaborating closely with multidisciplinary teams in agile environments to deliver high-quality software solutions.

### TECHNICAL SKILLS

**Programing languages:** Golang, Node.js, PHP, Python

**Frameworks & Libraries:** Gin, Gorilla Mux, Fiber, Nest.js, Laravel, Flask, Vue

**Databases:** PostgreSQL, MySQL, MongoDB, SQLite

**Cloud:** AWS, Lambdas, Terraform, DigitalOcean

**Others:** Docker, Git, CI/CD, REST, gRPC, GraphQL, Scrum, Datadog, Testing, Linux, Event Drive

### PROFESSIONAL EXPERIENCE

**Softtek, Mexico** - *Software Engineer*

AUG 2023 - MAR 2024

- Designed and developed APIs with **Lambdas** using **Golang** to improve frontend response times
- Refactored legacy projects in Node and PHP by implementing unit and integration tests
- Configured and deployed applications on AWS

**Bunsan, Mexico** - *Golang Developer*

MAY 2021 - MAY 2023

- Collaborated with agile teams to design, develop and test technical solutions following **SDLC** principles
- Developed with extensive test coverage, code reviews and **Git** managed workflows

- 
- Modeled and optimized SQL and NoSQL databases

### **Bedu, Mexico** - *Backend Developer*

NOV 2019 - MAY 2021

- Implemented **GraphQL** in e-commerce APIs using Nest.js for efficient data fetching
- Built authentication and authorization mechanics for microservices in Go following **SOLID** principles
- Integrated third-party APIs like Vault and Firebase using **Terraform**
- Developed reusable libraries in Go, Node

### **Cultura Colectiva, Mexico** - *Full Stack Developer*

OCT 2018 - NOV 2019

- Developed **gRPC** API within a microservices architecture to improve the scalability
- Built CLI tools to migrate data between applications
- Integrated APIs for frontend projects using **Vue.js**
- Maintained and improved legacy services

### **Clickbus, Mexico** - *Full Stack Developer*

JUN 2017 - OCT 2018

### **Pulpomatic, Mexico** - *Backend Developer*

AUG 2016 - JUN 2017

### **Vinco Orbis, Mexico** - *Web Developer*

JUN 2012 - FEB 2016

- Integrated third-party payment gateways in Symfony
- Developed applications using **MVC** pattern architecture with Laravel
- Contributed to Express, **Angular** and Vue applications
- Participated in defining the technology stack of the startup
- Managed MySQL, PostgreSQL, and **MongoDB** databases

## **EDUCATION**

### **Instituto Tecnológico de Tlalnepantla, State of Mexico**

*Bachelor's Degree in Computer Science*

2005 - 2010

## **LANGUAGES**

- Spanish (Native)
- English (Intermediate B1 & Technical)
